

Charles Siu, *How to Drive a Car* Website, 2017.

How to Drive a Car is a website that gives the user an introductory tour of how to drive a car. The inspiration for the website comes from the artist's anxiety when first learning how to drive, as the many components of the car can be intimidating for novice drivers. The informal language and cartoon-styled illustrations make the tutorial more approachable to new drivers of younger age. By creating the tutorial, the artist aims to eliminate the difficulty of learning how to drive.
